METHODOLOGY

OVERVIEW OF DATA METHODOLOGIAL APPROACH

DATA CHARACTERISTICS

- A total of 2048 sales order transaction were analysed
- Key attributes include: customerName, products ,sales territorry,temperature
- comprehensive market trend explanation

ANALYTICAL APPROACH

- Statistical correlation analysis
- Data visualization and trend analysis
- comparative market analysis methology by Kipkoech Amos

TOP PERFORMING PRODUCTS

Top sales products

1. **Fender Set - Mountain sold , sales amount =46617 with a profit margin of 62.60%**
2. **Hintch ranch sales amount 36360 with a profit margin of 62.60 %**
3. **Classic vest m sales amount 12382 with a profit margin of 62.60% also**

Sales distribution

- Fender Set - Mountain dominates with a strong customer preference
- Consistennt performance across multiple sale s
- Opportunity for competitive analysis in this segment

KEY INSIGHTS

Focus inventory acquisition on high performing products

PRICING STRATEGY ANALYSIS

- Average selling price : $25453
- Average MMR (MARKET VALUE) $ 32735
- Price premium $650 (2.6 % Above MMR)

PRICING BY PRODUCTS CATEGORY

PRICING EFFICIENCY

Optimal pricing Alingnment opportunities identified

key correlation findings
